Hello Eugenia and James –

We will provide this information by the end of the week, as requested.

Regards,

Peter

Hey Rob,

We still need to look at the mapping shapefiles prior to the meeting and the additional information that we requested on the interpolations:

- The total area for each of their groups (1, 2, 3a, 3b, and 4)
- The number of points for each of their spatial and time groups (1, 2, 3a, 3b, and 4 for ~1995 and ~2010)
- Probability distributions comparing the five spatial groups for the two points in time.

Can you provide this stuff before the end of the week? Thanks

Eugenia:

I can give you a call to discuss but we have not mapped the other COPCs that are listed because there is a significant amount time and effort required to do so and if the EPA disagrees or modifies the CPG approach then it is a major do-over. However, We have recently started Total PCBs but W would not have that done until late October...

Rob

Rob,

We made some modifications to the Agenda -attached. See you on the 26th at 10:00 AM.

Thanks,

eugenia

Eugenia & Stephanie:

The CPG modeling team can do September 26 at Mahwah.

Thanks

R/

Rob
